## SUPPLY CHAIN INTEGRITY

SAFETY · TRUST · CONFIDENCE

### PATTERSON DENTAL PROMOTES SAFE INDUSTRY-WIDE SUPPLY CHAIN PRACTICES.

We work hard to ensure the highest integrity of our supply chain. Gray market dental distribution, however, poses a threat to the dental industry. Patterson Dental is putting patient safety first and raising industry awareness of potentially unsafe gray market or illegal black market products. Among our highest priorities are our dental customers' reputations and their patients' safety.

# 5 Products to Get Kids Hyped About Oral Hygiene

Research has shown time and time again that our health habits develop very early in life. Not only that, but once habits are ingrained they're exceedingly difficult to change. So, in order to give our tots the best possible shot at growing into happy, healthy adults with happy, healthy mouths, we've got to start young! Each of the following products is designed to heighten kids' excitement about oral care. From light-up toothbrushes with built-in timers, to cherry flavored chewables that reveal which teeth need more brushing, we've put together five of the most exciting items to get kids hyped about hygiene!

## 1. Sparkle Fun Toothpaste

Be honest: you have totally used a dollop or two of this toothpaste long after exiting childhood. Who could blame you? It's blue, it's sparkly, and it tastes like yummy bubblegum. The reason you continue to occasionally sneak a brush full of this toothpaste is the same reason kids will love using this product themselves: it's FUN! And if kids are enjoying the brushing process, you're well on your way to encouraging healthy oral hygiene habits that will last a lifetime. As a bonus, this toothpaste's formula contains Fluoristat, a cavity-fighting fluoride that's gentle on tooth enamel.

## 2. Interactive Toothbrushes

Fun toothpaste is of no benefit unless you have something just as exciting to glob it upon! Here are four of our favorite children's toothbrush options, and what makes them stand out from the crowd:

- **Crayola Light-Up Timer Toothbrush:** As its name suggests, these brushes come with a very special feature: simply press the bottom of the brush and a light-up timer will start. The bright light, which is color coordinated to match whichever of the "crayons" kids choose, flashes for two minutes, the length of time that dentists recommend brushing for. Plus, the bottom is a suction cup so you can store this brush on the countertop rather than in a dirty drawer.
- **Oral-B Stages Youth Toothbrush:** These cuties are made for kids 5-7 years of age, but there are also brushes in the Stages line intended for children as young as 4 months, and as old as 12 years. They're plastered with images of beloved Disney/Pixar movie characters, and from handle to bristle they're multicolored and charming. Additionally, purchasing any of these Oral-B brushes grants you access to download a free app called "Disney Magic Timer," which encourages longer brushing with the use of Disney music, sound effects and digital sticker collecting.
- **Star Wars Children's Travel Toothbrush:** These travel brushes are perfect for today's overbooked tots on the go. Each set includes a plastic toothbrush cover, which helps keep bristles germ free. It's not just any cover, mind you, but one with a holographic image that switches between the Symbol of the First Order and the Symbol of the Rebel Alliance. Between the eye-catching case and a handle wrapped with fan favorite characters like BB-8 and Kylo Ren, this is one brush kids will ALWAYS remember to stick in their overnight bags and backpacks!
- **Patterson Junior Toothbrush:** Is there anything more fun than picking out your special toothbrush from a dentist's treasure trove of color options? Not only is the decision-making process fun, but when kids participate in the choice, they feel a closer connection to the experience. These brushes come in eight striking hues, so there's a shade for every child's preference. Another cool feature? They can be personalized! Engraving a dental practice's contact info, an organization's logo, or even a silly phrase like "You don't have to brush all your teeth, just the ones you want to keep," are all great ways to make this a brush kids will want to reach for time and time again.

## 3. Fun Flossers

Wouldn't you say that convincing your kids to floss can often be like ... pulling teeth? It doesn't have to be! A variety of manufacturers have "funified" flossing by creating disposable flossers shaped like all sorts of creatures from the animal kingdom, in a variety of funky colors. Here are three of our favorite options, and why:

- The grape flavored **Crayola flossers** stand out the most for their unique colors, and include a floss formula coated with fluoride.
- The mixed berry flavored **Plackers** have the edge when it comes to quantity – each pack contains four flossers, which means kids will be able to get multiple uses from one sample package.
- The **Wild Flossers** are great since they're the largest, so young children still developing manual dexterity will have the easiest time flossing all by themselves. Also, they're shaped like dinosaurs. Need we say more?

## 4. Festive Fluoride

If you put a child's favorite character on anything, that thing instantly doubles in fun. Fluoride rinses are no exception! Listerine has one bottle style that displays Elsa, Anna and Olaf from "Frozen," and another that depicts The Avengers crew, proudly fighting crime ... and cavities!

ACT has one bottle design that features SpongeBob, and a travel sized option (perfect for sticking in backpacks or lockers for after lunch) that comes in a perfectly princess-worthy pink hue. Both products are alcohol-free and bubble gum flavored, and they even tint food particles so that when swishing and spitting is complete, kids can see evidence of the icky bacteria they killed right there in the sink!

## 5. Tasty Tablets

It's no secret that children are extremely visual learners, so the idea of plaque, a virtually invisible enemy, can be hard for them to wrap their minds around. Chewable disclosing agents are super cool, since they give plaque a "face" to fight! After brushing or flossing, kids can simply pop in a cherry flavored disclosant tablet, and the vegetable dye-based chewable will turn any remaining plaque bright red, clearly showing them where further attention is needed. As long as you can deal with red-mouthed kids running around the house trying to scare for a few minutes, this unique and interactive product is worth a try. It's also available in liquid form, with the same pleasant cherry flavor.

If putting sparkly toothpaste atop a light-up toothbrush, flossing with a dinosaur and becoming a plaque detective doesn't get your child excited for oral care, we're not sure what will! Do you have experience with these products? Do kids love them as much as we suggest? Are there any healthy-habit inspiring products we may have missed? Drop us a line at [socialmedia@pattersondental.com](mailto:socialmedia@pattersondental.com) and let us know!

## 5% SODIUM FLUORIDE WHITE VARNISH – PATTERSON

- Ideal for treatment of dentinal hypersensitivity and reduction of post-op sensitivity
- Smooth consistency for fast and easy application of thin, even layer on tooth surface
- Completely hardens within 10 seconds of contact with saliva or moisture and remains on tooth for several hours
- White varnish dries to natural tooth shade
- Contains xylitol, a naturally occurring, low-calorie sugar substitute with anticariogenic properties
- Eliminates gagging and mess caused by conventional fluoride trays
- Made in the USA

50 (0.5 ml) single dose packages and 50 brushes

Melon ..... 093-2822      1@ \$67.95  
Mint ..... 093-2830

## PIT & FISSURE SEALANT – PATTERSON

- Inhibits dental caries by sealing occlusal surfaces
- Protects teeth from acid conditions caused by oral bacteria and dietary carbohydrates
- Not manufactured with bisphenol A (BPA)
- Contains bis-GMA and other resins
- Light cured, radiopaque, fluoride releasing
- 2 viscosities: low, 7.7% filled, and regular, 34.4% filled, for increased strength and durability
- Pearlescent color is easily seen in the mouth
- Made in the USA

4 (1.2 ml) syringes and 20 (22 gauge) prebent needles

Low Viscosity ..... 089-3982      1@ \$33.95

Regular Viscosity ..... 089-3990

# It's TOUGH being a tooth

Children are increasingly being exposed to a wide variety of acidic foods and drinks, including fresh fruit, juices, sour sweets and sports drinks<sup>1-3</sup> that can put their **vulnerable young enamel** at risk of acid erosion<sup>2</sup>

ProNamel® 6-12 Years Toothpaste for Kids is specially designed for the important mixed dentition years with an optimized fluoride formulation that helps to **protect enamel from caries and acid erosion**,<sup>4-6</sup> all in a child-friendly flavor<sup>7</sup>

For strong resilient enamel  
– recommend ProNamel® for Kids

# DO MORE RESTORATIONS WITH CEREC®

RESTORATIONS

ORTHODONTICS

IMPLANTOLOGY

DOING MORE FOR YOUR PATIENTS MEANS  
DOING MORE FOR YOUR PRACTICE.

CEREC single-visit chairside restorations eliminate inconvenient impressions, messy materials, time-wasting temporaries, and unnecessary reduction of healthy tooth structure. CEREC offers patients the esthetics they want, while offering you the control you appreciate. And because CEREC eliminates the need for a second appointment, you can treat more patients in the same amount of time.

- Inlays, onlays, crowns, veneers, bridges and custom abutments
- Largest selection of material choices to satisfy virtually any clinical indication
- Industry-leading service, support, education, and community

To realize all the benefits of doing more restorations with CEREC, contact your Patterson Representative directly or call **800.873.7683**.

# IT'S TIME TO PUT **PATIENT SAFETY** FIRST.

Potentially unsafe “Gray Market” or illegal “Black Market” refers to products and materials often found at deep discounts through unauthorized channels. These include products that are:

## \$6 BILLION

The U.S. dental supply market is a \$6 billion industry\*

Some estimate nearly 15% of the U.S. dental market is gray or black\*\*

## 5-8% OF **PRODUCTS**

One manufacturer estimated 5-8% of products carrying their label were in fact counterfeit\*\*\*

Visit [DentalSupplyIntegrity.com](http://DentalSupplyIntegrity.com)

Deep-discount dental products that appear “too good to be true” are often just that. While low prices are appealing, the risks may outweigh the rewards. Protect your dental patients from potentially unsafe gray market and illegal black market products. Learn more about gray market dental supplies and Patterson’s commitment at [DentalSupplyIntegrity.com](http://DentalSupplyIntegrity.com).

S A F E T Y · T R U S T · C O N F I D E N C E

\*\*\*Dental Equipment and Supplies Manufacturing in the U.S. and Its International Trade” Supplier Relations US, LLC, Irvine, CA, February, 2014.

\*\*\*Shades of Gray” Mentor, Santa Ana, CA, December, 2013.

\*\*\*\*Are you using ‘gray-market’ or counterfeit dental products?” Journal of American Dental Association, June, 2010.

# OraVerse®

## Phentolamine Mesylate

**BUY 3 + GET 1!**

**Item #641-2118**

OraVerse® 10 pack  
Phentolamine Mesylate

**NO MIX & MATCH**

### Important Safety Information

Tachycardia, bradycardia, and cardiac arrhythmias may occur with the use of phentolamine or other alpha-adrenergic blocking agents. Although such effects are uncommon with OraVerse (phentolamine mesylate), clinicians should be alert to the signs and symptoms of these events, particularly in patients with a history of cardiovascular disease. Following parenteral use of phentolamine at doses between 5 to 15 times higher than the recommended dose of OraVerse, myocardial infarction, and cerebrovascular spasm and occlusion have been reported, usually in association with marked hypotensive episodes producing shock-like states. OraVerse is not recommended for use in children less than 6 years of age or weighing less than 33lbs. Offer expires 6/30/2016

# Biodentine®

A bioactive dentin substitute

- Ideal for pulpotomies
- Sets in 10-12 minutes
- Root perforations
- Resorption
- Pulp capping
- Deep Caries
- Apexification

# The MI Family

MI Varnish™, MI Paste™ & MI Paste Plus™

**"RECALDENT™ (CPP-ACP) technology has transformed my practice!** I use MI Varnish™ and MI Paste™ because RECALDENT™ (CPP-ACP) technology offers a natural and unique system for releasing bioavailable calcium, phosphate and fluoride into the saliva. MI Varnish™ and MI Paste™ are an essential part of my practice."

- Dr. Pamela Maragliano-Muniz

- Bioavailable fluoride, calcium and phosphate ions released into the oral cavity
- Improved salivary fluoride levels
- Does not clump or separate
- Pleasing flavors - fresh strawberry and now new fresh mint

**MI Varnish™ Package: \$123.95**

208-8649 Mint    208-8623 Strawberry
