

**The Centre for Reproductive Medicine, P.A.
Janelle Dorsett, M.D.**

VERY IMPORTANT INFORMATION: PLEASE READ

Thank you so much for making an appointment with us. We are looking forward to assisting you with your reproductive needs.

Please fill this packet out completely and return it to our office along with a copy of the front and back of your insurance cards. You will have TWO separate appointments for your initial visit. If you need to cancel or change an appointment, please call as soon as you know the appointment needs to be changed. This first one will strictly be an APPOINTMENT BY TELEPHONE. **You will need to call our office, we WILL NOT call you.** We will designate a time for you to interview with one of our nurses. She will ask various health questions regarding your past medical/social history. Approximately one to two weeks later, you will have a PERSON-TO-PERSON APPOINTMENT with me. I have allowed at least 45 minutes for each new patient. **If you fail to keep your nurse interview or send in all paperwork, your appointment will be cancelled.** It is very helpful to have any pertinent medical records sent to our office prior to the interview with the nurse. This will make your time with us go more smoothly, as well as preventing repetitious testing.

What to expect: I will review your medical and reproductive histories, including any testing or treatment that you and your partner may have had. An examination and sonogram will usually be performed as well. At the end of your visit, I will review the findings of the exam and sonogram and will either recommend a treatment plan at that time or order additional tests if necessary. If additional tests are ordered, a follow up appointment may need to be scheduled to review results then develop a treatment plan. During your time with us, you will work closely with our nurses who will be your primary contact. They work very closely with the physician to ensure that your individual treatment plan is followed. They will also educate you on treatment protocols, medications, testing procedures and the next steps involved in your treatment.

Again, thank you for entrusting us with your medical needs and we look forward to helping you.

Sincerely,

A handwritten signature in cursive script that reads "Janelle Dorsett, M.D.".

Janelle Dorsett, M. D.
