BEST PLASTIC SURGEON:

Dr. Roger J. Oldham

Dr. Roger J. Oldham (10215 Fernwood Road, Bethesda, 301-530-6100) enjoys the creativity of plastic surgery, which he has been performing for some 30 years. He specializes in cosmetic surgeries, such as face-lifts, breast augmentation and abdominoplasty, which he does at Shady Grove and Suburban hospitals. Before devising a strategy, he shows patients several photographs and provides ample discussion time. Oldham, 62, of Potomac, offers a "lunchtime" schedule for many skin-care treatments, including Botox and Restylane injections, in his office.
