

A portrait of Rebecca Lauck, a woman with short, wavy blonde hair, smiling. She is wearing a bright green collared shirt and a necklace with various colored beads and stones. The background is a textured, abstract painting in shades of green and blue.

Blue Stone Dental

[REBECCA LAUCK, DDS, FAGD, DABCP]

Specialty | General Dentistry with a focus on the entire family. Blue Stone Dental performs all phases of dentistry for young to older patients with a special focus in Cosmetic Dentistry, Orthodontics, TMJ pain and Sleep Apnea alternatives.

What Sets You Apart | Our advanced training in many areas of dentistry allows us to perform all treatments in one office without the need to refer to specialists for implants, sleep apnea, braces, TMJ, oral surgery, cosmetic dentistry, dentures or root canals. I also practice Mercury-free and Mercury-safe dental health, and take all the necessary precautions in the removal of old mercury fillings. Patients should be aware that all silver

fillings contain 50% mercury and are always releasing mercury vapors.

Best Advice Received | There is more to dental health than just teeth. Oral health care influences and provides signs to the entire body's health. As a dental physician, I always look beyond the problem by asking "why is there disease?" By answering this question, I can treat the causes such as poor diet, large tonsils, snoring or sleep apnea, small airways or poor jaw alignment.

Philosophy | Your smile is only the beginning of the treatment you will receive in our office.

Mission | Our patients appreciate the convenience of having the whole family treated at

one location and the relationships they form with our entire health team. We want to help you obtain and maintain the best possible oral health while making you look great, too.

Setting the Standard | We take time to sit and listen to our patients' goals for their oral health, any fears they may have and how to help them. As a health care team, we pride ourselves in extensive continuing education in order to make our patients feel comfortable and at home.

You Should Know | I love what I do! I have wanted to be a dentist since I was only 5-years-old. You could say that being a dentist is a dream come true for me. I feel very privileged to be able to provide orthodontics to my own kids (*15-year-old twin boys*) and to yours. I get great pleasure every time I see my kids smile. I enjoy providing that to other parents as well.
