

NO INSURANCE?

Our patients don't need it.

BY BYRON NORDHUS | NORDHUS DENTISTRY

The number one reason people fail to seek dental care is because of the costs associated with it. Dental insurance costs can range from nearly nothing to hundreds of dollars a month, but that's not going to keep you covered. After the insurance costs, there still could be out-of-pocket expenses, emergency repairs and uncovered procedures that need to be taken care of. So what's the deal?

DENTAL CARE, SIMPLIFIED.

Dental insurance is a lot different from health insurance. It may cover some of your preventative maintenance, but when it comes to those high-cost procedures, expensive crowns or exams, you could be left on your own. But there's a healthier way to receive dental care. With Nordhus Dentistry's subscription-based model, you'll be able to skip the insurance trouble and receive high-quality dental care for your most pressing dental issues.

With Nordhus Dentistry, there are no forms to fill out, no deductibles to worry about, no phone calls to make, no long wait times, and no insurance battles to navigate. Fillings, root canals, scheduled cleanings, and even major dental procedures can now be handled by a dentist you'll work with directly.

MEMBERSHIP PLANS FOR INDIVIDUALS AND BUSINESSES

Nordhus Dentistry's monthly membership plan is perfect for all patients, even if they suffer from previous conditions. Patients with periodontal disease, for example, are able to receive excellent care and maintenance cleaning for one low-cost fee.

This plan is also perfect for children and adults. Membership fees include x-rays, exams, one emergency exam per year, and 15 percent off other treatments, so your whole family can receive care without the stress.

But individuals aren't the only ones who will benefit. Businesses can help their employees stay healthy by offering Nordhus Dentistry's membership plan for

businesses. Save on compassionate care by offering employees dental health services that will keep them smiling. Businesses with 16 or more employees only pay \$19 per month per employee, which means better dental care and fewer problems.

WHAT'S YOUR FIRST STEP?

Are you ready to take control of your dental health, lose the insurance hassle, and save money on preventative maintenance and exams? Join Nordhus Dentistry and see why so many patients are smiling.

"After several years of searching for the right dentist, I stumbled upon Nordhus Dentistry. As a child, I didn't have problems with my teeth. Suddenly, after having children, I felt like they were falling apart! Nordhus Dentistry completely changed the way I feel about going to the dentist. Dr. Nordhus performed a complete evaluation and had a dental plan set up for me before leaving the office. He never lectured me. He never made me feel embarrassed. I am now involved in my ongoing treatment plan, and feel assured that the staff at Nordhus Dentistry will take good care of me."
