I am always greeted when I arrive. The office is beautifully decorated at holiday time, and very inviting all year. My cleaning began on time and ended in a timely manner. Ashley is cordial and efficient. Dr. Tucker does a thorough exam of the teeth, mouth, jaw and glands. Staff is pleasant and available for answering questions. It is always a pleasant experience.

They have a very friendly staff! They also are very helpful. I really felt they cared about taking care of me. I left my last dentist not because of him, but because the front end staff couldn't care less about me. Both setting up as a new patient and getting in the office was great, a much better experience. I'm really happy about how it went. I'm not keen on dental work, so that was a big plus. I have other medical issues and Dr Tucker was very knowledgeable in taking that into consideration with my treatment plan. He knew what had to be done to fit my dental needs in with everything else I have to deal with. I am super happy and will be bringing the rest of the family here too.

Hi, I think your office is great and the service is excellent. However, it always to go over services, talk about what is being done and what costs will be up front and what is covered (most do that especially with regards to insurance), it would be nice to know cost first before service is done just to be aware of what you will be charged before than after. So there is no shock in the end. Especially depending on how your insurance covers and what will be covered.

I had to go in for an emergency extraction: Don got me an appointment within 24 hours. It was a difficult extraction; he asked several times if the anesthetic was wearing off and gave me a "booster shot" to make the extraction as painless as possible. The tooth was decayed quite a bit and broke off in several pieces; he got them all. I'll be going back to him for an implant with full confidence that he'll do the best job possible.

Dr. Tucker did my cleaning yesterday (with Tabitha assisting--always a pleasure as she is as kind and thoughtful as she is competent). Having the Dr. For a teeth cleaning is unusual and I was fortunate to have this happen. It resulted in excellent instruction on proper gum care, proper at-home cleaning, advice about teeth alignment, explanation and discussion for all of my questions. and a free follow up visit to review my at-home care. I feel that Dr. Tucker is always committed to preventive care and long term dental health which is terrific. This visit was as I've come to expect from Dr. Tucker--an excellent dental experience.

No long wait for an appointment. Was seen "on time" the day of the appointment. All staff were warmly welcoming and, simultaneously, thoroughly professional. Dr. Tucker welcomed questions and enjoyed "educating" me in the area of oral hygiene - including the importance of regular and "correct" flossing. The atmosphere was relaxing and I left feeling I had had a thorough examination and evaluation of my current dental condition. I am confident that if problems arise and treatment needed, I will have excellent care. Meanwhile I intend to pay attention to what I, the patient, need to do in terms of preventive care.

Hi guy's, Every thing was great. All good. I do need to change my next appointment for sure. Our insurance covers 2 cleanings a year. Ever 6 months. Since I have such build up, we have been doing them every 4 months, instead of every 6 months. The reason is because I have to pay out of pocket the third one. (Pricey stuff). I want you to schedule me every 4 months so the insurance pays for two and I only pay for one. May 21, Sept 21. and Jan 21. We are on SS and Pension so the budget is tight. Please reschedule as I have asked and get back to me. Early mornings always best for sure. I will see you on Feb 10 for my filling:)

Dr. Tucker is so experienced and kind that I will recommend him to my friends should any of them need dental care. I made my appointment through emergency call because I was suffering terribly from pulpitis. Before that day, I followed his advice about how much and when to take pain-killer. It turned out to be precisely helpful. On Monday, I went to his cozy clinic. He didn't ask me to do unnecessary tests like full-mouth X-ray. Instead, he pointed out what I needed most were tooth cleaning and wisdom tooth extraction. I did these things in the afternoon and now I'm recovering and feeling great relief. Unfortunately Dr. Tucker is not in the system of my dental plan, so it was so expensive. However Dr. Tucker granted me \$25 deduction because I'm a student. That's sweet. Anyway, Dr. Tucker is an excellent doctor. I feel thankful that I could meet him.

I like the new layout of the office -- the waiting room is more spacious and welcoming. The hygienist was extremely professional and well-informed -- she answered a question that had been bothering me for years, and made recommendations about a change in toothpaste that may solve a problem. Dr. Tucker holds himself and his staff to a very high standard, and at the same time maintains a relaxed and friendly atmosphere. Both patients and staff feel at ease.

I appreciate that fact that Dr. Tucker took the time to read over my file and learn about me. I think that adds a very nice touch to the appointment - very personal. Everyone there was very welcoming & friendly. I was a bit disappointed though, that he didn't take the time to see if I had any insurance before formulating a treatment plan. There

are some who are just needing basic treatment because they are paying out of their own pocket.

I feel very fortunate to be Dr. Tucker's patient. He recently extracted one of my molars, but only after making every effort to save it, and seeking the advice of specialists. The procedure was as close as possible to painless, and the recovery was quick and easy. I like the staff, and they clearly like him. His investment in the most up-to-date equipment and his on-going participation in seminars show his commitment and professionalism. He is extremely compassionate, but what I like best is his effort to educate his patients. He is a very clear teacher. He asks you to demonstrate your brushing and flossing techniques, and is clear and direct in his critiques. I wish I had had such instruction when I was younger...

As a fairly new, less than a year patient of Dr. Tucker's, having discovered his extraordinary expertise and professional advice, I must say that he and his staff always make me feel like an old friend. Today was no exception to this extra-special treatment. After Tracy's friendly greeting and Eva, his Dental Hygienist expert instruction & prophylaxis, his assistant Dodie was ready to usher me to the dental couch, and as usual, made me feel as comfortable as possible. When Dr. Tucker took over and began preparing me for what turned out to be a quasi-difficult procedure, which lasted more than an hour, at no time did I feel uneasy. I know now, Dr. Tucker's gentle but capable manner makes all his patients feel this way. Making sure I knew what was happening, he performed a resin based composite on two teeth in what seemed like a much shorter time. I was truly surprised and satisfied.
