Silivia L.	5*	4/18/2016	I love going to Progressive Eye Care. Dr. Broadbent has been by far my favorite doctor compared to two others. I do sometimes feel like I have to actively ask what's going on with my eyes instead of him just saying what's going on after he runs his tests. But I still receive the information just the same. I just wonder when I sit there if I have to ask. I would still recommend Progressive Eye Care to my family and friends which I have always done in the past.

Carol S.	5*	3/28/2016	Very clean, courteous and friendly Atmosphere, for starters. I went in after finding Progressive Eye Care on the jnترنت, being close by my home. I had an issue with my eyes and Dr. Broadhead prescribed some drops which took care of the problem within two days. I was treated like I was the most important person in the place. I noticed that

			everyone else visiting that day was also treated that way. Even left with a gift bag. What a nice departure from the businesses that shuffle you in and out after collecting their fee. Not here. I will use Progressive Eye Care for my vision needs, and my family's. Thanks to the wonderful staff there!!!! Well done!!!
Cynthia K.	5*	3/24/2016	I am very hard to fit for contact lens and have to wear a toric gas perm lens. I have had the best fit from Dr Broadhead. He worked so hard to get them to fit just right and kept reordering them until he had the correct fit. He also was able to fit me with glasses which I have been able to use as backup for days I want to rest my eyes from contacts. The office staff is so friendly and helpful. I have continued to see Dr Broadhead even though I have moved out of state. it is worth the drive to have a doctor who cares as much as he does in getting the best fit possible.

And a gracious new customer gift was an unexpected surprise too! Dr. Broadhead was incredible and just so nice - wonderful and really caring. He took extended and thorough time to evaluate my needs further, educate me on the condition of my eyes, the expectations and also provide me with exactly what I needed. Onto sweet Maria who helped me order a new set of beautiful new glasses and I so enjoy wearing them and having the correct prescription for them and my contacts as it was meant to be - I feel so much better about my eyes and vision now! Definitely recommending those I care about to enjoy the care they can expect at Progressive Eye Care!!
Tom F.	5*	3/14/2016	The lady who did all the preliminary tests was great and Dr Broadhead was terrific. I was not very impressed with the lady who tried to get me into some glasses. She did not listen to what I was saying and I had a very hard time

Kaylee A.	4*	12/26/2015	I bought my first pair of glasses just recently from Progressive Eye Care, and really enjoyed my experience. Dr. Broadhead did a great job with figuring out what needed to be done so I could see better. I also loved how the lady in charge of the eyeglasses helped me pick out 3 choices of glasses that she thought would look good on me. However, I wish that the whole appointment didn't feel so rushed because to me, getting glasses is a huge change in someone's life. Overall though, I would recommend going here to my friends.
Blake S.	5*	12/26/2015	Very friendly, Dr. Broad head is excellent with children. The office staff are all very friendly and helpful. They take time to answer all your questions and go over insurance coverage with you and help you make the best decision possible

Lissa G.	5*	9/6/2015	My wife had a irritated eye that turned into a infection. Of course it would happen on a normal work day. She made one call to the office emergency line and on a Saturday Dr. Broadhead came in to treat her. I can't thank him and the office for really caring about their patients. They even called her today to see how she was feeling. You do not find service or care like this any more. We both go to this office and I not only tell my friends but my employees about this office. The doctors are great and their office is not only friendly but make you feel like you are a close family member. Hats off to them for the care and the laughs every time I go in. You all are the BEST!

Doug L.	5*	6/25/2015	Progressive Eye Care is the third eye care professional that I have seen in two years. After having had two not so good experiences, I was hesitant to go to another. I didn't know who to choose. I only chose Dr. Broadhead because his office is close to my home and a friend of mine has his same last name. I have to say, though, that my experience with Progressive Eye Care was the best experience I have ever had with an eye care professional. From the moment I walked in I was treated very well. They did a few small things like a welcome card and gift that made the experience very comfortable and enjoyable. Dr. Broadhead was very patient in answering all of my questions and answered them in a way that I could understand. He has a great selection of eye glasses and the people assisting me

Chris C.	5*	3/31/2015	Marie and Sheila have just been wonderful to work with for my first pair of glasses. I originally ordered glasses with a progressive lens, but this was just too much for my eyes to adjust to at 47 years old. Marie and Sheila were understanding and had the glasses remade without the progressive lens for NO ADDITIONAL CHARGE and I absolutely love them!! Also, Dr. Broadhead's recommendation for the Transition EXTRActive lens was perfect. Thanks so much, CC

Jennifer M.	5*	7/9/2014	I've enjoyed Dr. Broadhead's expertise when I had both my glasses examination (a few years ago) and my contact exam (more recently). One of the ladies in the front helped me find a pair of glasses that looked good and I still enjoy. But with my contacts, it has been more vague. Sometimes it's hard to know what questions to ask. So communication is probably the hardest thing. It's nice you are trying your best! Keep up the good work, because we see the world through our eyes! :)

Shauna Mitchell	5*	5/9/2014	I have always had a good experience with the staff at Progressive eye care and feel that I am getting the best care that I could for me eyes. Because of a history of family eye problems Dr. Broadhead always checks for those problems so that if they arise we can catch them early.
Shauna M.	4*	5/9/2014	I always have a good experience when I come. I just wish I would get a yearly reminder instead of having to remember when I am due and calling in myself.

Ross T.	5*	5/8/2014	My wife got her glasses a year before I did, and she had me go, and had a great experience, and I will return to renew my prescription, and enjoy my new glasses. Thanks Progressive Eye Care, your entire staff is very helpful, and Sheila, her husband and myself worked together at RC Willey.
Shanin U.	5*	5/8/2014	Great experienced staff that is very patient. They let my wife try on 100's of glasses and they were very helpful. They also have a great selection of brands, including Oakley, Gucci, Nike, etc...

Ean W.	5*	5/7/2014	Dr. Broadhead was very thorough with his exam and patiently explained any questions I had. The equipment used for the exam was state of the art and I was very happy with the service I received. There seemed to be a bit of a language barrier in the help I received from the lady who helped me with the pricing of my contacts/glasses and she was of average help when choosing frames. Nothing special about the ladies who checked me in for my exam.

C Webb	5*	5/9/2013	<p>We have been going to Progressive Eye Care for about the last 4 or 5 years. They are awesome. The staff is very friendly and knowledgeable and Dr. Broadhead is excellent with families. We have not been disappointed with them. We have been to some pretty poor eye doctors, and Dr. Broadhead blows them out of the water. We will never go to any other eye doctor as long as Progressive Eye Care is around with Dr. Broadhead.</p>
Tracy Field	5*	3/5/2013	<p>We moved here from Chicago over 8 years ago and didn't know anyone in the area. Our neighbor recommended Dr. Broadhead. As it turned out, both kids needed glasses at early ages. Dr. Broadhead and his staff were great with my kids; they have watched them grow up and have helped them with each stage...glasses to contacts and beyond. Both kids love going to the eye doctor. Even though I don't need glasses (yet) and I have always passed all of the eye exams/tests with flying colors, I recently learned of some serious eye problems in my family history that are difficult to detect. With this new information, Dr. Broadhead reviewed my charts, scheduled several tests and follow-up tests just to be sure we had covered all of the bases. As it turned out, he had been watching and testing for all of these eye problems for years. What a relief! I wouldn't trust anyone else with my eyes or my children's eyes. Dr. Broadhead and his staff are amazing.</p>
Dixie Wise	5*	2/27/2013	<p>We were new to the area and I wasn't sure where to go to get the kind of care I did for 20 years in my hometown. Dr. Broadhead was recommended by a neighbor and I have to</p>

Rob G.	5*	11/26/2009	<p>tell you that it was the best eye exam I have ever recieved. He tested things that hadn't been tested before and took the time to talk to me and asked questions about my vision that I hadn't thought about. He was very kind and professional and I knew I was in good hands. I am happy to be a new patient and have scheduled appointments for my husband and son. I just wanted to say thank you to everyone there at Progressive - you were terrific!</p> <p>I am from Idaho and was visiting my father-in-law in South Jordan. He suffered an eye injury on Thanksgiving Day. I called Dr. Jeff Broadhead at Progressive Eyecare and asked for help. He left his family during Thanksgiving dinner to assist us. My father-in-law received treatment and was able to enjoy the rest of his Thanksgiving Day. Here is a doctor and a eye care practice that you can count on and that really cares. Thanks Doctor Broadhead!</p>
